

Altusen KE0220 Audio KVM Extender

KE0220 Audio KVM Extender

The KE0220 Audio KVM Extender enables a user at a local keyboard, video, mouse (KVM) console and a user at a remote KVM console up to 200m away to access a computer or KVM installation. It provides full audio support for a microphone and stereo speakers. The KE0220 can connect to any ATEN KVM switch that has PS/2 connectors. A built-in custom ASIC ensures stability, reliability and compatibility with your KVM installation. The KE0220 senses the distance and automatically adjusts the video signal gain for the highest quality picture. A manual gain control also is provided at the remote console to fine tune the video.

Features

- Built in ASIC chip for greater reliability and compatibility
- Uses inexpensive Cat 5e cable to connect the local and remote units up to 200m (660 feet) apart
- Audio support for long distance microphone and speaker control
- Adjustable gain control-manually adjusts signal strength to compensate for distance
- High video resolution up to 1600 x 1200
- Supports DDC2B for local monitor (Display Data Channel for communication between graphic card and monitor)
- PS/2 and Microsoft Intellimouse Support
- Dual console operation-control your system from both local and remote consoles
- Firmware upgradable
- Multiplatform support: Windows 2000/XP/Vista, Linux., Unix and FreeBSD.

Package Content

- 1x KE0220L (Local Unit)
- 1x KE0220R (Remote Unit)
- 1x 5-in-1 Cable 1.8M (2L-5302P)
- 1x Firmware Upgrade Cable
- 2x Power Adapters
- 2x Rack Mount Kits
- 1x User Guide
