

## Altusen KH1516 16 Port CATx KVM Switch / Switches

The KH1516 KVM Switch is control unit that allow access to multiple computers from a single KVM console. The KH1516 features RJ-45 connectors and Cat 5 cable to link to the computers. Combined with Auto Single Compensation (ASC) signals can travel up to 40 meters and still maintain high video resolution. Utilizing PS/2 and USB KVM Adapter Cables for the final linkup, the KH1516 permits any combination of PCs, Macs, Sun computers, and serial devices to coexist on the installation.

### Features

A single console controls up to 16 computers

Dedicated chain ports - daisy chain up to 31 additional units - control up to 512 computers from a single console

Extends the distance between computers and switch - up to 40 m (130') for resolutions of 1280 x 1024 @ 60Hz, 30m (100') for resolution of 1600 x 1200 @ 60Hz

Custom ASIC (patent pending) auto-senses station's position on daisy chained installations - no need for manual DIP switch setting - front panel LED indicates station's position

Multiplatform support: PC, Mac, Sun and terminal-based systems

No software required - convenient computer selection via port selection switches, Hotkeys and intuitive On Screen Display (OSD) menus

Auto Scan feature for monitoring user-selected computers

Hot Pluggable - add or remove switches/computers without having to power down the switches

Two level password security - only authorized users view and control the computers - up to four Users plus an Administrator with separate profiles for each

Two level logout - Manual and Timed

PS/2 keyboard and mouse emulation - computers boot even when the console focus is elsewhere

Superior video quality - supports resolutions of up to 1600 x 1200 @ 60Hz

Multi-language keyboard support: American/UK English; Traditional Chinese; Japanese; French; German; Korean

Rack Mountable in 19" System Rack (1U)
